### PROFESSIONAL SUMMARY

As a professional IT architect with a decade of experience, I have demonstrated expertise in delivering high-quality solutions that bridge the gap between IT architecture and business needs. I pride myself on my ability to communicate effectively and engage in conversations with professional and accurate content at the right time. My interpersonal skills and kindness allow me to build strong relationships with colleagues and stakeholders alike, making cooperation a breeze. I am a reliable and autonomous worker, delivering projects on time with exceptional attention to detail. With an in-depth knowledge of IT and business processes, I strive to provide the best possible solutions to complex problems.

### EXPERIENCE

#### 2024 – Present DOMAIN ARCHITECT – MOL Group

- Define and govern architecture standards and roadmaps
- Drive strategic technology and solution decisions to support business transformation, ensuring alignment with enterprise architecture and domain-specific goals
- Support project architects and ensure quality and compliance of architecture deliverables through governance boards and project lifecycle stages
